I'm an experienced developer with an emphasis on full-stack web development looking to find an entry level development position. With completed projects spanning a wide range of problems, I'm able to apply my skills to various challenging issues.

Development Skills

Web

Capable of creating static sites to full dynamic web applications. Great understanding of front-end technologies like JavaScript(ES6), CSS, HTML5, Sass, Bootstrap, Materialize, ReactJS and jQuery. An understanding of back-end technologies like Node.js, Express, REST API, PHP and Ajax. Comfortable with deploying full scale apps.

Desktop

Years of experience in Java, C++, and C# application development from high school and college. Capable creating from scratch, maintaining, debugging, testing, full scale applications with various technologies to be ready for release.

Database

Great understanding of database manipulation such as creation, reading, updating and deleting tables/collections with SQL and MongoDB.

Education

University of Nevada Las Vegas, Las Vegas, NV   Graduated: December 2019
  Bachelor of Science in Computer Science
Cheyenne High School, Las Vegas, NV   Graduated: June 2013
  Advance Diploma

Projects

Blackjack App
- Technologies: HTML5, Sass, CSS, JavasScript
- Project was primarily done with Javascript and lacked reponsiveness throughout the application. Game is fully functional with rematch capabilities, score counter, hand count, and all Blackjack functionalities. Game is fair with every game starting with a newly shuffled deck. Currently remaking this game with ReactJS.
- Repository: https://github.com/xjkbro/Blackjack
- Live Demo: https://xjkbro.github.io/Blackjack

Quark, the Quorum Particle Engine
- Technologies: *Quorum*
- While the project at hand was difficult, it provided guidance and understanding in projects that needed teamwork, leadership, communication. Skills students need in order to be prepared for the industry
- Project was developed in Evidence-based language Quorum. As a group design a particle engine library for Quorum.
- Duties included managing tasks to everyone, handled input/output of particle properties, cleaning and testing everyone's code.
- Repository: https://jkdelara@bitbucket.org/stefika/quark.git

Website Portfolio
- Technologies: HTML5, Sass, CSS, JavaScript, Bootstrap, Node.JS, Express
- Practiced many technologies while putting up a well-presented portfolio. Initial glimpse is a landing page that offers custom responsive CSS. By traversing to the about page, I display all my

Other Technical Skills

- Tools: Git/Version Control Systems, Postman, MS Visual Studio Code/Community, MS Office, Adobe Creative Suite (Dreamweaver, Illustrator, Photoshop, After Effects Spark, XD), MySQL, Bitbucket, GitHub, Gulp, Remote Desktop, PuTTY, Bash, Powershell, Apache, NPM
- Cisco Networking Academy Course provided through High School
- Computer Science and AP Computer Science courses provided through High School teaching Java

Work Experience

Rue21   October 2017 – Present

Sales Associate/Stock Manager/Assistant Manager

- Provided excellent customer service by intimately greeting customers with a warm welcome and ensured that they were aware with our promotions and being aware of who is in the store making sure they're having a great shopping service.
- Managed stock room and contacted other Rue21 stores to transfer any of our back-stocked and unwanted units to respective Rue21 stores.
- Provided leadership and trained new associates proper greetings and responsibilities throughout their shift.

Banana Republic   October 2018 – March 2019

Lead Stock Associate/Brand Ambassador

- Provided leadership with shipment team and ensured shipment was completed on time before it was time to open the store.
- Ensured the stock rooms were organized and clean.
- Ensured the stores merchandise were sufficiently stocked and standardized throughout the day.
